It's time to  
**BUILD SOMETHING TIMELESS.**

Installed on over 5.5 million homes from coast to coast, James Hardie® fiber cement siding products are designed to resist the most extreme conditions while romancing the senses. Enjoy the warm, natural character of wood with unprecedented peace of mind. It's easy to see what makes James Hardie the market leader.

**UNIQUE FORMULATION**

We use the highest quality raw materials and proprietary additives for enhanced strength and moisture protection.

**FINISHING TECHNOLOGY**

Baked-on color delivers a beautiful finish that resists fading and makes a lasting impression.

**COMPLETE EXTERIOR™**

Offers homeowners an unrivaled collection of design options with exceptional warranties through a single, trusted manufacturer.

● HardieZone® System

HZ10® Substrate

## HardieZone® System

Only James Hardie fiber cement products are Engineered for Climate.® In the northern U.S. and Canada, HZ5® products resist shrinking, swelling and cracking even after years of wet or freezing conditions. HZ10® products help protect homes from hot, humid conditions, blistering sun and more.

With James Hardie siding and trim, homeowners have an exterior that's tougher than the elements and easy on the eyes.

### TOUGHER THAN THE ELEMENTS

Stands up to storms and harsh weather

Water resistant to protect against swelling, warping and cracking; also resists mold damage

Won't be eaten by animals or insects

Fire resistant

Helps reduce time and money spent on maintenance

Resist the elements  
**WITH IRRESISTIBLE CHARM.**

HardieZone® System

● HZ10® Substrate

## Unique Formulation HZ10® Substrate

Not all fiber cement is the same. James Hardie HZ10 products contain the highest quality raw materials. Our unique formulation, combined with innovative product design and manufacturing processes, create a substrate that is specifically engineered to resist water absorption, cracking, shrinking and swelling for increased durability and workability.

### PROPRIETARY ENHANCEMENTS CREATE THE MOST DURABLE JAMES HARDIE® SIDING EVER MADE

#### Perfect balance of strength and workability

Our balance of high-quality Portland cement, sand and cellulose fiber delivers the best combination of strength and workability.

#### Enhanced moisture resistance for unmatched durability

Patented and proprietary additives are chemically bonded within the HZ10 substrate matrix to provide durable moisture resistance.

#### Increased dimensional stability

Our siding is engineered at the microscopic level to create a fiber cement composite with superior dimensional stability that helps protect against shrinking and splitting.

### UNMATCHED INVESTMENT IN MANUFACTURING SCALE AND PRODUCT INNOVATION

- Largest manufacturer of fiber cement in North America
- 5x more capacity than our largest competitor
- More than 100 process and product quality checks
- 100+ scientists and engineers provide dedicated resources for continuous innovation in manufacturing and product development
- More U.S. fiber cement patents than any competitor

### YOUR RETURNS ON OUR INVESTMENT

- Superior siding and trim performance for beauty that lasts
- Consistency in appearance from board to board
- Natural-looking profiles for authentic character

Integrity is ingrained  
**IN EVERYTHING WE DO.**

## Gold Primer

A quality primer is the first step to ensuring that the paint color you select beautifully expresses a home's true character now – and for years to come. Our distinctive gold primer is climate-tested and engineered to enhance the performance of paint on James Hardie fiber cement siding products. It helps to provide consistent, long-lasting paint adhesion, even in the most demanding conditions.

## ColorPlus® Technology

Our advanced ColorPlus® Technology finishes deliver the ultimate in aesthetics and performance. Our products aren't simply painted at the factory. Multiple coats of color are baked onto the board, creating a vibrant, consistent finish that performs better, lasts longer and looks brighter on your homes.

- Superior finish adhesion
- Superior UV resistance
- Superior color retention
- Year-round installation

# HardieSoffit®

A home is only as strong as its weakest point. HardieSoffit® panels reinforce your work by protecting the vulnerable gap between eaves and exterior walls.

Available in vented, non-vented and a range of pre-cut sizes, these panels complete your design and protect it from moisture and pests.

HardieSoffit®  
16 in. Vented  
Smooth  
Arctic White

For complete confidence  
**EVERY DETAIL MATTERS.**

## VENTILATION BENEFITS

Using vented soffit improves ventilation in the attic space and reduces the chance of water vapor condensation that can lead to issues such as mold and mildew growth, stained ceilings and damage to the framing of the house.

In warm climates, HardieSoffit panels allow hot, humid air to escape, which not only helps prevent condensation in the attic, but can also help reduce air conditioning costs.

In cool climates, HardieSoffit panels help prevent condensation from forming on the interior side of the roof sheathing and reduce the chances of roof-damaging ice dams.

\*\*\*Linear Feet of Vented Soffit calculation is based on 2012 International Residential Code (IRC) Section 806.2, Exception 2, with a 50% upper attic and 50% lower attic split of required ventilation, using soffit with a net free ventilation of 5 square inches per linear foot. This Exception is also approved in 2015 IRC Section 806.2. Always consult a building design professional to confirm attic ventilation meets local building code requirements.

Using the proper amount of vented HardieSoffit panels is crucial to a building's ventilation performance. James Hardie has taken the guess work out of soffit ventilation by providing the table below illustrating the minimum amount of vented HardieSoffit panels recommended for your attic space.\*\*\*

ATTIC SQ. FT.	LINEAR FT. OF VENTED SOFFIT	ATTIC SQ. FT.	LINEAR FT. OF VENTED SOFFIT
200	10	1700	82

# HardieWrap®

No exterior cladding can prevent 100% of water intrusion. Your homes should have an additional line of defense. HardieWrap® weather barrier provides a superior balance of water resistance and breathability, keeping the area within the wall drier. This helps prevent moisture accumulation that may lead to mold and mildew growth.

## INSTALLATION ADVANTAGES

- Thicker, more durable material for easier, quicker installation
- Superior tear resistance helps prevent water infiltration
- Can be installed with staples in place of cap nails for cost savings
- Provides a higher level of performance, no matter what type of cladding you specify

We've got performance covered

## Finishing Touches

### ColorPlus Technology Accessories

#### TOUCH-UP KITS

Specially formulated to match ColorPlus Technology finishes, our Touch-up Kits offer resistance to aging, color change and chalking. Included in the kits, Touch-up Pens conceal nailheads and very small nicks and scratches.

#### COLOR-MATCHED CAULK

OSI® QUAD® MAX sealant offers a durable, lower maintenance sealant solution to color match James Hardie ColorPlus products.

### Trim Accessories

#### FLAT TABS

Reduce nail holes and improve the aesthetic of trim applications around windows, doors and band boards.

#### CORNER TABS

Use corner tabs to reduce the appearance of nail holes that would detract from the finished look of corner trim installations.

Find useful job-site tips in our industry-leading Best Practices Guide. For the latest installation instructions, visit [hardieinstallation.com](http://hardieinstallation.com)

# Color Inspiration

Use deeper body colors for a warm, welcoming feeling. Make homes appear larger with soft contrasts between siding and trim. The right color combinations leave lasting impressions. Our color specialists designed the rich ColorPlus finish collection to help you express what's special about every home you build.
