## Revolutionary Cool Roofing

- **Helps Reduce Cooling Costs...** According to the Cool Roof Rating Council, cool roofs may save you an average of 7–15% on your total cooling costs.<sup>1</sup>
- **Rebates...** Some utility companies may provide incentives for using cool shingles.

Thanks to the reflective nature of Timberline® Cool Series® Shingles, part of the heat radiating from the sun gets reflected, helping to reduce the heat in the attic and heat going into the house. It may translate into savings on air-conditioning bills.<sup>1</sup>
