AFCO-RAIL ALUMINUM

AFCO-Rail Aluminum features classic lines that enhance any architectural setting. Extruded from 6063 aluminum alloy, AFCO-Rail will not rust. Extruded, machined brackets afford great strength, durability and ease of installation. AFCO-Rail Aluminum is finished with durable AAMA 2604 powder coat paint; three high-gloss colors and four textured, low-gloss finishes. For outstanding appearance and enduring performance, make your choice AFCO-Rail Aluminum.

Series 100 Fixed & Adjustable Stair Rail

Series 100 stair rail is available in two designs: fixed and adjustable. Fixed stair rail includes rails, balusters and brackets cut at a 34-degree angle. Baluster mount toggles and pivoting brackets allow the adjustable stair rail to accommodate 0- to 36-degree angles. Both designs provide factory-installed baluster connectors.

Fixed Stair

Series 200 Level & Fixed Stair Deck Board Rail

The flat top rail design allows for a deck board, either wood or composite, to be mounted on top of the rail section. The board will pull the color of the deck into the rail and the wide, flat surface creates resting place for cool drinks on a warm summer's day. Available in both Level and Fixed Stair configurations.

Post-to-Post Mount Products

AFCO-Rail Aluminum offers a wide variety of extruded aluminum rail posts designed to accept brackets. Each post is supplied in all seven colors with welded mounting base, extruded base trim, ACQ barrier pad and post cap. Optional brackets are available for 22-1/2- and 45-degree angle attachments. Note: 45-degree brackets require a 4-inch or wider post.

- Designed to receive aluminum level AFCO-Rail brackets

Over-the-Post Mount Products

Series 100 AFco-Rail Aluminum is available in Over-The-Post configurations, providing clean sight lines often preferred by homeowners and architects. Post mounts include 1-7/8" wide posts complete with four different level rail bracket styles. A fixed stair post is also available to provide an uninterrupted connection for stair runs requiring additional support for Type-2 graspable rails.

- 10" Adaptor

Package

Contents:

- 1 Top & Bottom Bracket included with each size

ROUND SMOOTH FIBERGLASS ADAPTOR

- Designed to fit contour of AFCO 8" and 10" smooth round fiberglass column

- Provides flat surface for mounting level AFCO-Rail aluminum brackets
- 1 set contains one top and one bottom adaptor.

Fixed Welded Gates

36" x 36" and 36" x 42" sizes

- Available with either Round or Square Balusters
- Uses standard Bottom Rail Extrusion around all four sides of the gate frame
- Finished product is welded together for a strong, sturdy gate
- Does not include hinges, latches or mounting hardware

Adjustable Gate Kit

Kit Contains:

- Two 1-7/8" Posts with Over-the-Post End Post Top Rail Brackets to serve as the vertical framework of the gate
- Two Center Rail Mounting Brackets
- Two Crossbrace Straps

Adjustable Gate Kit requires a section of AFCO-Rail Aluminum Level Rail

- Rail section can be cut to any width required for the opening
- Does not include hinges, latches or mounting hardware

AFCO-Rail Balusters

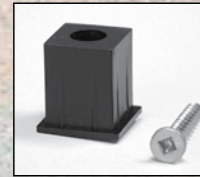

For a mixed material look on your deck, consider AFCO-Rail Balusters with your wood railings. These extruded, 3/4" aluminum balusters are available in Black Tex, Bronze Tex or Brown Tex finish and sold in 10-Count Job Boxes or 100-Count Master Boxes. Connector sets for Level and Stair installations are sold separately.

AFCO-Rail Baluster Connectors
