HERITAGE® SERIES

LAMINATED ASPHALT SHINGLES

1. Cut Classic wood-shake look

Complement your home's architecture by adding a striking new dimension to your roof. Heritage® Series shingles replicate the beautiful, natural aesthetics of wood shakes, at a lower cost, without the fire susceptibility of real wood. And the random-cut sawtooth design of Heritage Series shingles provides added beauty.

2. Color A full palette of distinctive choices

Find the colors you want to get the look you want. Heritage Series shingles feature striking color palettes that range from classic to contemporary to strikingly bold. All Heritage Series shingles offer TAMKO's own unique granule mix and distinct color drop to create a random shake-like look across the entire roof, as well as a Shadowtone blend that provides enhancing natural contrast and depth.

In 1995, TAMKO introduced vibrant tones to the roofing industry with the launch of America's Natural Colors®.

Heritage shingles offer a unique granule mix and distinct color drops.

3. Coverage Going beyond the beauty

The beauty of your roof is only half the story. Shingles begin to age as soon as they are exposed to nature. Buildings experience aging factors differently, so it is difficult to predict how long shingles will last. That's why TAMKO provides a Limited Warranty.

Heritage Premium and Heritage Vintage shingles come with a 50-year Limited Warranty and a 20-year Full Start Period. Heritage and Heritage Woodgate shingles come with a 30-year Limited Warranty and a 15-year Full Start Period. All are UL Listed for Class A Fire Resistance and UL Classified for Wind Resistance. They also come with our Algae Relief—Algae Cleaning Limited Warranty that provides for cleaning of discoloration caused by certain algae growth.
